Split Operation Form

This form is to be used to provide information about the non-organic aspects of a split operation (organic and non-organic production) over all production units that have an income stream.

Form instructions: This form can be completed on a computer, (save the form onto your hard drive before filling it in; to fill in, place cursor in grey boxes) or with a black ink pen. Do not use pencil. If you run out of room, attach another file or sheet of paper. Keep a copy of this form for your records.

Name:	Farm Name:	Date (dd /mm/yyyy)
For Office Use Only:		
Reviewed by:		Date:

Crop and Field Information. Complete the following table by crop (or type of animal), for all non-organic production for the current or approaching season (including hay and pasture).

1. Are you growing the same variety of crop in both the non-organic and organic sections of your farm (parallel production)?
 yes no
If yes, how do you manage to maintain adequate distinction between organic and non-organic produce?

2.	Crop or Type of Animal	Field ID(s) (or n/a)	GMO? <input type="checkbox"/> Y <input type="checkbox"/> N	Acres/ha	Parallel Production? <input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N		<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N		<input type="checkbox"/> Y <input type="checkbox"/> N

			<input type="checkbox"/> Y <input type="checkbox"/> N		<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N		<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N		<input type="checkbox"/> Y <input type="checkbox"/> N

If more space is required, attach a separate page. *an extra page is attached.*

Input list - Complete the following table for: prohibited soil & fertility amendments/herbicides/pesticides, feeds, or any other production related input you have used in the last 12 months. If this is your first year in a certification program, list the products you anticipate using during the next 12 months. Period covered: to *not applicable, I do not use Inputs.*

3.	Product	Brand Name	Field ID	Storage Location	Applied by Self (s) or Custom (c)

If more space is required, attach a separate sheet. *an extra page is attached.*

4. Do you store prohibited materials in the same location as allowed materials? yes no
If yes, explain how you segregate them and identify the materials prohibited in the organic units:

Pacific Agricultural Certification Society

Equipment Cleanout Procedures: Complete the following table if you use the same equipment on both organic and non-organic sections of your farm.

5.	Equipment used on both organic and non-organic production	Cleaning procedure between non-organic and organic crop	Cleaning log kept?
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N
			<input type="checkbox"/> Y <input type="checkbox"/> N

If more space is required, add a separate page. **an extra page is attached.**

6. I understand that my CB may require the Verification Officer to inspect spray records and inventories and crop and sales records from my non-organic operation. yes no – explain:

7. How do you separate and identify organic and non-organic growing areas?
 Buffer zones are marked with flags.
 Organic and non-organic portions are physically distant.
 Physical boundaries (fences, hedges, roads, ditches) separate crops.
 Separate greenhouses.
 Other (specify):

8. Do you grow organic and non-organic crops in the same greenhouse? **not applicable**
yes no
If yes:
 Describe how you separate organic and non-organic portions of your greenhouse.
 How do you prevent drift of prohibited materials through ventilation and/or watering systems?

9. Do you have separate storage areas for organic and non-organic produce? yes no
If no, explain how you prevent commingling/contamination of the organic produce in storage (check all that apply)
 Storage area is sectioned and clearly marked.
 Storage bins and boxes are clearly marked.
 No prohibited materials (including rodenticides) are used in storage areas.
 Other (specify):

10. Do you use the same washing facilities for organic and non-organic produce? yes no
If yes, how do you avoid contamination of the organic crops?
 How do you avoid commingling of organic and non-organic produce throughout the washing area?

11. Do you have separate packing facilities for non-organic produce? yes no
If no, how do you prevent commingling of organic and non-organic produce?
 Packing at different times with cleanout procedure documented.
 Separate harvest containers which are clearly marked.
 Other (specify):
