## ORGANIC PRODUCT COMPOSITION (OPC)

### Product Profile for WINERIES and CIDERIES – Initial Plan only

The purpose of this Organic Product Composition (OPC) document is to inform PACS what ingredients and products you intend to use in your organic products. It will help the Certification Committee review all of your proposed ingredients, and let you know if they are approved for use, before you purchase them. THIS DOCUMENT IS NOT AN ORGANIC PRODUCT PROFILE (OPP). A final OPP (a template is available on the PACS website) must be submitted, reviewed, and approved before the product is listed on your organic certificate. *NOTE: Non-organic ingredients and processing aids shall comply with prohibitions in 1.4 of CAN/CGSB 32.310.*

Enterprise name:		Date:	
------------------	--	-------	--

#### ESTIMATED DATES OF BOTTLING FINAL PRODUCT(S):

Product name	Estimated bottling date (Month/Year)

#### ORGANIC COMPONENTS:

List of organic ingredients	Organic source	Certifier	Certification Committee
