Organic Plan: Wild Crops

This form is to be used for initial and renewal applications for certification of wild crop harvesting. If wild crops are one production unit combined with other organic crops or livestock, other Organic Plans must be requested from the PACS office.

Note: If shipping or planning to ship products outside of your home province/territory, be sure to indicate the destinations in question #8. Products being shipped into Quebec or the USA must meet the labelling requirements of those jurisdictions.

Form instructions: This form can be completed on a computer, (save the form onto your hard drive before filling it in; to fill in, place cursor in grey boxes) or printed and completed with a black ink pen. Do *not* use pencil. **If you run out of room, attach another file or sheet of paper.** Keep a copy of this form for your records. Sections marked "VO" are for the verification officer only.

22. Describe your harvest methods.
 What is your harvest season? **From:** **to:** .
 What containers are used for harvesting?
 gravity wagons/boxes truck boxes cardboard/waxed boxes
 wooden totes plastic containers PVC plastics
 other (specify):
 Are containers new or used? new used – **what did they contain prior to organic use?**
 Are the containers used for organic crops only? yes no – **explain:**
 Describe potential contamination or commingling problems that you have with harvest of organic crops. **none**

23. In the table below, explain how your harvest methods fulfil the following requirements:

Protect the species NOT being collected	Promote growth or re-growth of species being harvested	Prevent disturbance of the environment in the production area

If more space is required, attach an additional page. **An extra page is attached.**

24. What instructions are given to the collectors regarding protection of the collection area and organic handling requirements? (*Attach a copy of the instructions, if written.*)
 Do collectors follow these instructions? yes no – explain consequences:
 Is this documented? no yes – **attach a sample** **sample attached**
 Attach a copy of any contract held between your enterprise and the hired collectors (company). **copy attached**

C. POST HARVEST HANDLING **not applicable**

The Canadian Organic Standards require that post-harvest handling procedures do not contaminate organic products with non-organic crops or prohibited materials. Depending upon the complexity of the processing conducted on-farm, we **may** require that you complete an Organic Plan for *Food Preparation and Packaging*.

25. Describe your post-harvest handling procedures and equipment:
 Is the post-harvest area or equipment used for **both** organic and non-organic products? no yes
If yes, describe the measures taken to prevent commingling and contamination of the organic products.
 Are these measures documented? yes no

26. Do you wash any of the wild crops that you harvest? no yes
If yes has the wash water been tested and proven to meet Canadian Drinking Water Guidelines?
 yes – **date of last test:** **Result of last test:**
 no – **explain:**

27. Do you produce any multi-ingredient products within your facilities? no yes
 Do you do any processing of any kind for anyone else? no yes
If yes to either of the above questions, contact the PACS office and request the organic plan for *Food Preparation and Packaging*.

G. ORGANIC OPERATOR AFFIRMATION

I affirm that all statements made in this application are true and correct.

I understand that:

- The applicable transition period of my enterprise does not commence until all documents constituting a complete application have been duly submitted to the PACS office for review, upon which time my enterprise and all its functions are operating under certification body supervision.
- Acceptance of this document in no way implies granting of certification by the Certification Body (CB).
- My operation may be subject to unannounced inspection and/or sampling for residues at any time as deemed appropriate to ensure compliance with the Canadian Organic Standards and Permitted Substances Lists.
- Any wilful misrepresentation will result in de-certification.
- Production methods may not alternate between organic and non-organic methods.
- This completed document is confidential information according to the policies of the BC Certified Organic Program. Membership and certification status, however, is public information.

I agree:

- That I have read, understood, and agree to comply with the CB Constitution, Bylaws and Production Standards.
- To provide any further information as required by the CB.
- To allow the Verification Officer and/or members of the Certification Committee and the COABC Accreditation Board auditors access to all areas of my enterprise and to my records, including but not limited to: inputs, production, processing, handling, sales and products purchased for resale, from both organic and non-organic production.

I am applying as a [choose only one of the following]:

- COR applicant*** - ISO-compliant certification for interprovincial/international trade.
- BCCOP applicant*** - certification of my products for sales only within my own province/territory (BC Certified Organic Program).
- BCCOP applicant*** certification of my products to the BCCOP Low Risk Program. I understand that the eligibility requirements for participation in the Low Risk Program include the following criteria:
- a) Enterprise must not be exporting organic product out of BC
 - b) Enterprise must not practice parallel production
 - c) Enterprise must not have outstanding conditions
 - d) Enterprise must have received a valid organic certificate in all of the previous three years
 - e) The enterprise must be assessed for risk, and receive a low-risk ranking from the certification committee
